ETAILED ACTION

Double Patenting

Claims 17, 20-21, 26-28 are rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 8-16 of U.S. Patent No. 6,555,589. Although the conflicting claims are not identical, they are not patentably distinct from each other because of the reasons set forth in the Office Action dated 7-16-2004.

In the remarks filed by the applicants on 2-17-2005 the applicants state that the Obviousness type Double Patenting (ODP) rejection issued by the examiner in the Office Action dated 7-16-2004 was obviated by filing a Terminal disclaimer on April 16, 2004. However, upon careful inspection of the file, the examiner noted that the referenced Terminal Disclaimer is related to the US Patent 6,232,354, while the ODP rejection in the Office Action of 7-16-2004 was issued with respect to the claims of US Patent 6,555,589. There is no Terminal Disclaimer on the record with respect to the 6,555,589 patent. Thus, the ODP rejection of pending product claims over the claims of the referenced '589 patent is re-instated.

Furthermore, claims 17, 20-21, 26-28 are rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 7-16 of U.S. Patent No. 6,555,590. Although the conflicting claims are not identical, they are not patentably distinct from each other because of the reasons set forth for the claims of '589 patent in the Office Action dated 7-16-2004.

Art Unit: 1711

The applicants may overcome these rejections either by filing Terminal Disclaimers over the referenced patent or submitting persuasive arguments of non-obviousness of the pending claims over the claims of the referenced patents.

The product claims 17, 20-21, 26-28 as amended are allowable over the prior art of record.

The applicants should further note that the application contains process claims that have been restricted from the product claims in one of the previous office action. The process claims are NOT of the same scope as any of the product claims and, thus, will not be rejoined with the allowable product claims. Therefore, the applicants are advised to either cancel the process claims, or to amend the process claims so that they are completely commensurate in scope with at least one of the allowable product claims.

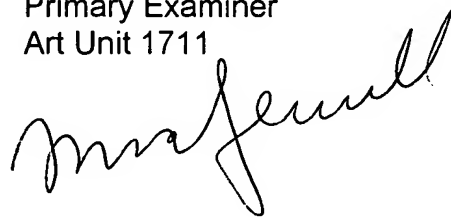

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Irina S. Zemel whose telephone number is (571)272-0577. The examiner can normally be reached on Monday-Friday 9-5.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, James Seidleck can be reached on (571)272-1078. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
